

# AI & EDUCATION

## Professional Development

### WHAT IS GENERATIVE AI?

Generative AI creates new content such as text, images, and video by recognizing patterns in large datasets. Tools like ChatGPT, MagicSchool AI, and many others are helping educators streamline lesson planning, differentiate instruction, assist with administrative tasks, and inspire creative engagement. These tools can make learning more personalized, efficient, and future-ready.

### WHY SHOULD EDUCATORS CARE ABOUT AI?

GenAI is already having wide-reaching impacts on education. Here's how:

**32%**

**Teachers Use AI**  
saving 6+ hours a week  
(Gallup, 2025)

**36%**

**High School Students**  
use AI regularly for school  
(Center for Democracy & Technology)

**88%**

**University Students**  
use AI for assessments  
(HEPI, 2025)

**61%**

**Educators Report**  
students cheating with AI  
(Carnegie Learning, 2025)

### TRY THIS CHATGPT PROMPT:

“Create a list of the effects of AI on education, breaking out the list by the different groups affected by it.”

### AI & EDUCATION SERVICES

#### AI for Educators

Explore how generative AI can enhance teaching. This hands-on session introduces key tools, demos, and ethics—helping educators build shared understanding for confident, responsible AI use in schools and districts.

#### AI for Future-Ready Classrooms

Build AI literacy in your classroom with this advanced workshop. Learn to redesign assessments, create student-centered instruction, and equip students with the durable skills needed to thrive in an AI-driven world.

#### AI Strategy and Implementation

Partner with us to create a customized AI strategy for your district. We help align initiatives with instructional goals, ensure ethical adoption, and equip leaders with a clear, actionable implementation roadmap.

#### Book Study

Join educators around the state in this completely online, self-paced, and interactive book study using Matt Miller's AI for Educators.  
*(Free for Compass members)*

### AI FOR ORGANIZATIONS

#### AI & Organization Workshops

We offer hands-on, customized AI workshops for businesses and organizations. Learn to streamline tasks, boost productivity, and spark innovation with practical strategies tailored to your team's unique needs and goals.

### CUSTOMIZED PD

#### AI Support for Districts & Organizations

Have another idea on how you would like support integrating AI into your school, district, or organization? We'd love to brainstorm solutions for you or your staff!
