

EXPLICIT INSTRUCTION

Professional Development

Empower educators with the knowledge, skills, and strategies necessary to enhance instructional effectiveness and maximize student learning outcomes.

WHAT IS EXPLICIT INSTRUCTION?

Explicit instruction is a systematic and direct teaching approach in which educators clearly and directly communicate information, skills, or concepts to learners. This method involves providing explicit explanations, modeling, and guided practice to ensure a thorough understanding of the subject matter.

WHY CHOOSE EXPLICIT INSTRUCTION?

The goal of explicit instruction is to make complex ideas more accessible by breaking them down into manageable pieces and providing step-by-step guidance for learners. This approach is characterized by clarity, structure, and teacher-led activities to promote effective learning and comprehension.

TRAINING OPPORTUNITIES

Our training equips educators to create engaging learning experiences for all students using the thirteen guiding principals of explicit instruction. Choose from focused, comprehensive, or customized training options to suit your schedule and needs.
