

PARAPROFESSIONAL TOOLKIT

Professional Development

With the increased need for paraprofessionals working in Special Education comes the need for focused training and professional development designed for them. Our Paraprofessional Toolkit has 19 tools to provide paraprofessionals with the basic skills and knowledge required to carry out their job with confidence. Each tool can be delivered through in-person workshops or as online modules. Combining tools for hands-on group sessions offers deeper learning. Empowering paraprofessionals with the confidence and skills they need to support students from day one.
