

OUT-OF-SCHOOL TIME SERVICES

ThirdSpace Collaborative strengthens out-of-school time (OST) programs through dynamic statewide partnerships, hands-on learning, and tailored professional development. Together, we **empower educators** and **communities** to create lasting, **impactful experiences** for youth.

Out-of-School Time Evaluation

Amplify the impact of your afterschool program with our data-driven evaluation. You'll gain valuable insights, and together, we will identify challenges and set goals to achieve measurable and sustainable results to strengthen your impact.

Behavior & Engagement Solutions

Learn evidence-based strategies for managing behavior challenges and boosting youth engagement. These tools can improve program participation, foster social-emotional growth, and align with your mission to positively impact youth and families.

STEAM & Innovation

Innovative, hands-on STEAM approaches boost youth engagement and build essential 21st-century skills. These flexible, tailored activities can support your program's goals, increase participation, and help prepare youth for future success.

OST Family Engagement Tools

Equip out-of-school time professionals with research-based tools to strengthen partnerships with families and communities. Through guided assessment and customized support, programs build meaningful family engagement that supports youth success and long-term impact.

FIRST
LEGO
LEAGUE

We are the Program Delivery Organization of South Dakota for **FIRST® LEGO® League**. Bringing hands-on **STEAM learning, teamwork, and innovation** to youth at every level.
